Intimation of notes on sr 1.

Add to 24 Cr

24(c)

The sanitary improvements in question seem to be urgently required, and the Dewan may therefore be requested to kindly sanction the loan asked for. The better plan would perhaps be to ask the Sanitary Engineer to depute one of his Apprs to Nanjangode to get up a satisfactory pro-ject as quickly as possible. The agency of the Municipal Board may not be able to do this work. Q

R D 4 Rm
10 2 99

10/2/99

Place this upon the Dewan's note -
I think the loan ought to be sanctioned and the Sanitary Engineer requested to work in co-operation with the Municipal Board rather than wait for the comic opera of plague & then hurriedly start work and set-aside Rules recently issued. Prompt orders should be passed in this matter.

14 2.99

Put up to Dewan for favour of early orders

Please get all the information by sending some body over there at once & put up a note. I think that it is necessary to pay Rs 1000 on account of Principal. C

18/2/99.

(a) No copy of the order No 602-150 dy 3/2/94 (of which an extract from the Monthly Volume of February 1894 is herewith submitted,) was communicated to this or Comptroller office. Even the office draft of the Chief Engineers office is said to have been sent to the office of the Supdtg Engineer Western Circle.

(b) The amount of loan sanctioned in the above order is Rs 16302 or half the estimated cost of the work; but the loan actually advanced till the end of 1897-98 ~~is~~ was Rs 16,467 8-5 ⊕ or Rs 165-8-5 more than the sum sanctioned as per Comptroller's accounts. In repayment of the principal a sum of Rs 3326-2-3 was adjusted in the Comptroller's accounts up to the end of 1897-98, besides Rs 836-12-11 on account of interest.

Interest of Rs 836-12-11 was adjusted during 1896-97 & 1897-98 besides payment towards principal

Dy 20/2/99

Note

The Manager of the office of the Supdtg Engineer Sanitary, Western Circuit was asked to send a copy of the order, but no reply has been received as yet. To avoid further delay the paper is submitted as the information available

Dy 21/2/99

⊕ a moiety of expenditure incurred on the work till the end of 1897-98 according to the P W D Examiner's accounts

(1) Interest paid for 1896-97 Rs 418-13-3
(2) ---- 1897-98 Rs 417-13-8
Total Rs 836-12-11

It is also ascertained from the Examiner's office that up to the end of December 1898 an expenditure of Rs 249-0-7 was debited to the work. If a moiety of this additional expenditure is added, the aggregate loan actually advanced up to the end of December 1898 would be Rs 16.592-0-9.

Submitted for orders.

OFFICE OF THE President, Local Boards,
MYSORE DISTRICT,
Dated Mysore 4th February 1899

To

The Secretary to the Government of Mysore,
General and Revenue Departments.

SIR,

In submitting herewith Dr. Arunagiri Mudr's inspection notes on the town of Nanjengud, I have the honor to state that the Municipal Board of Nanjengud requested the grant of a loan of ~~Rs~~ 5000/- to enable them to open out the congested portion of the town and to provide the same with proper drainage. The Municipal Board agree to repay the same along with the loan that remains yet unpaid by annual instalment of Rupees 1000/- with 4 per cent interest. Though some improvements were made by Mr Standish [illegible] with regard to the sanitation of the town, much remains yet to be done in an important place like Nanjengud. He has suggested and recommended [illegible] of the town necessary. As [illegible] and Vesta and [illegible] action in respect of sanitation and the houses situated on the [illegible] of the drainage in the [illegible] and Mahadevaiah's [illegible] to be removed and the owners to be provided with house sites in the [illegible] South of the

Nanjengud - Hara road.

2. The financial condition of the municipality stands thus —

Receipts.

	Rs.
1. Octroi	3500.
2. House tax	1,800
3. Inhabitants	1,570
4. Miscellaneous	1000
Total income.	7870.

Including the collection of octroi on Kerosine oil and jaggory recently sanctioned by Government, the estimated receipts from the next year will be about Rs. 7870/- and the expenditure will be about the same amount as detailed in the margin exclusive of the balance to be reserved at the prescribed minimum. From it can be seen that hardly Rs 2000/- can be provided under VIII Public Works which is quite insufficient for the ordinary minor works to be carried out annually in the municipality. Owing to the limited resources, the above mentioned important works cannot be carried out without the help of Government and they have become indispensable and urgent owing to the

Expenditure.

	Rs.
Interest on debt	500
Payment of loan.	1000
Head Office charges	250
Collection establishment	270
Conservancy.	2284
Lighting	465
Water supply establishment	300
Public works.	1473
Charitable grants	210
Education	500
Miscellaneous	200
Total expenditure	7370

of plague in Mysore and apprehension of the same in Nanjengud &c, I request you will be kind enough to place the matter before Government and obtain their sanction to the grant of the loan prayed for by the Municipal Board of Nanjengud

I have the honor to be,

Sir,

Your most obdt. Servant

[signature]

President of the Local Boards,

Mysore District

READ—

Letter No 696, dated 4th February 1899, from the President of the Municipalities in the Mysore district, submitting Doctor Arnuga Mudaliar's Inspection Notes on the town of Nanjangud and requesting sanction to the grant of a loan of Rs. 5,000 to the Municipality to enable it to open the congested parts of the town and to provide the same with proper drainage.

READ—

Government Proceedings, Public Works No 1925-29—320-24, dated 6th May 1893, passing orders on Sanitary Works Budget for 1892-93.

READ AGAIN—

Public Works Department Proceedings No. 3916-36—749-69, dated 1st August 1894

ORDER THEREON —The orders read above contain some clerical errors regarding the various parts of that budget and it is therefore necessary to explain the distinction between the various parts, and to lay down the following rules —

(1) *Part I.*—Works to be carried out by the Sanitary Engineer, and the cost to be met partly from Government loans to municipalities, and partly from Government grants-in-aid to them. The annual grant for both such loans and grants-in-aid to be one lakh

(2) *Part II*—Works to be carried out by the municipalities themselves, subject to the professional supervision and control of the Sanitary Engineer Such supervision and control to include, in special cases, the laying down of streets, levels, grades, &c, and to be free of charge to the municipalities concerned

Cost of works in this part to be met from municipal ordinary revenue

(3) *Part III.*—Special works to be carried out by Government through the agency of the Sanitary Engineer.

Cost of such works to be met from either—

(*a*) Loans granted by Government to the municipalities concerned, or

(*b*) Grants from the District Local Funds in the case of sanitary works as distinguished from ordinary District Fund works These will of course be included in District Fund budget, but the execution will be by the Sanitary Engineer.

(4) Parts I and III should be sanctioned by Government in the Public Works Department Part II will be sanctioned by Government in the Municipal Department, but should be recorded in the Public Works Department.

(5) Loans given to municipalities for works in Parts I and III will bear 4 per cent interest and be re-payable in a number of years to be fixed by Government according to the circumstances of each case.

Estimates for works in these Parts should be accompanied by a written undertaking in, the appended form, from th municipalities concerned agreeing to the acceptance of the loan and its repayment.
